

# GLOWMATE™

PREVENT COSTLY SLIPS WHEN THE LIGHTS GO OUT.

Our specially formulated GlowMate properties allow high visibility in low or no light situations, which can save lives in an emergency evacuation. GlowMate provides a clear and visible escape route where smoke, power failures or low-light might otherwise disorientate workers.

# GLOWMATE YOUR LOW LIGHT NON-SLIP SOLUTION

Since 1974, Safemate Anti-Slip has provided quality non-slip walkway, stair, ladder and floor products to leading organisations in the Australian and international market.

Safemate is committed to providing slip resistant products to meet the specific environmental and operating conditions of virtually every industry sector. Safemate Anti-slip understands that low-light, dirt, oil and chemical exposure, high moisture, heavy impacts and around-the-clock operations all contribute to creating slippery stairs, ladders and walkways and have developed cost efficient nonslip solutions to meet these challenges.

A failure to provide an effective slip-resistant workplace or public area can not only cause serious injury or death, it can cost millions of dollars in lost revenue, fines, compensation payments and performance penalties.

We are proudly 100% Australian owned and operated, Safemate remains a respected innovator and industry leader. Operational, Maintenance and OH&S Managers have come to trust Safemate Anti-Slip to deliver on time effective and cost-efficient non-slip solutions.

Our ISO 9001:2008 accreditation ensures we are committed to providing the highest standard of quality in our products and services. Our products use only the highest quality materials designed to withstand the toughest operational conditions comply with industry regulatory standards worldwide - all backed by a full 5 year factory warranty.
