

ZINC COATED GRAVITY ROLLERS

Owing to our ability to mass product gravity roller efficiently, economical and reliable solution to your conveying requirements.

- High quality bearings which are case hardened and zinc plated
- Corrosion resistant
- Attractive and smooth zinc coated finish

Our range of standard gravity rollers can be selected as illustrated

gravity rollers provides a cost effective, gravity rollers has the following features :-

Model	Diameter (ød)	Roller Length (RL)	T	D ₂ ø	P	S	E	Bearing	Weight (Kg)
PP.25	25mm	200 ~1000	1.2 t	8	15	5	11	Pressed Type	0.3 ~ 1.33
PP.38	38mm	200 ~1000	1.6 t	12	15	5	11	Pressed Type	0.57 ~ 2.38
PP.50	50mm	200 ~1000	1.6 t	12	15	5	11	Pressed Type	0.7 ~ 2.79
PP.57	57mm	200 ~1000	1.6 t	12	15	5	11	Pressed Type	0.8 ~ 3.07
PP.60A-12S	60mm	200 ~1000	2.9 t	12	15	5	11	Pressed Type	1.46 ~ 5.17
PP.60A-15S	60mm	200 ~1000	2.9 t	15	15	5	11	Pressed Type	1.55 ~ 5.77
PP.76 -15S	76mm	200 ~1000	3.2 t	15	15	5	11	Pressed Type	1.95 ~ 7.35
PP.76 -17S	76mm	200 ~1000	3.2 t	17	15	5	11	Pressed Type	2.07 ~ 7.64
PP.76 -20S	76mm	200 ~1000	3.2 t	20	15	5	11	Pressed Type	2.13 ~ 8.36
PP.89 -20S	89mm	200 ~1000	3.2 t	20	15	5	11	Precision Bearing	2.31 ~ 9.63

- NOTE:
- 1) Roller lengths from 200 ~1000 mm are available at an incremental size of 50mm. (eg: RL: 200,250,300 1000 mm.)
 - 2) We also manufacture to meet costumes specifications and sizes.
 - 3) We reserve the right to alter the design, specifications or to discontinue the production of any item listed in this catalogue.
